## Notes to the Unaudited Financial Statements

### 1. Organization

The SPDR® Gold Trust (the “Trust”) is an investment trust formed on November 12, 2004 (“Date of Inception”) under New York law pursuant to a trust indenture. The fiscal year end for the Trust is September 30th. The Trust holds gold and is expected from time to time to issue shares (“Shares”) (in minimum denominations of 100,000 Shares, also referred to as “Baskets”) in exchange for deposits of gold and to distribute gold in connection with redemption of Baskets. The investment objective of the Trust is for the Shares to reflect the performance of the price of gold bullion, less the Trust’s expenses.

The Shares trade on the NYSE Arca, Inc. (“NYSE Arca”) under the symbol “GLD”, providing investors with an efficient means to obtain market exposure to the price of gold bullion. The Shares are also listed on the Mexican Stock Exchange (*Bolsa Mexicana de Valores*), the Singapore Exchange Securities Trading Limited, the Stock Exchange of Hong Kong Limited and the Tokyo Stock Exchange.

BNY Mellon Asset Servicing, a division of The Bank of New York Mellon (the “Trustee”) does not actively manage the gold held by the Trust. This means that the Trustee does not sell gold at times when its price is high, or acquire gold at low prices in the expectation of future price increases. It also means that the Trustee does not make use of any of the hedging techniques available to professional gold investors to attempt to reduce the risk of losses resulting from price decreases. Any losses sustained by the Trust will adversely affect the value of the Shares.

Effective October 1, 2014, the Trust has adopted the financial presentation provisions appropriate to an investment company for accounting purposes and follows the accounting and reporting guidance under the Financial Accounting Standards Board (the “FASB”) Accounting Standards Codification Topic 946, *Financial Services – Investment Companies* (“Topic 946”), but is not registered, and is not required to be registered, under the Investment Company Act of 1940, as amended (the “Investment Company Act”). Please refer to Note 2.2 Investment Company Status.

The statement of financial condition and schedule of investment at June 30, 2015, the statements of operations and of cash flows for the three and nine months ended June 30, 2015 and 2014 and the statement of changes in net assets for the nine months ended June 30, 2015 have been prepared on behalf of the Trust without audit. In the opinion of management of the sponsor of the Trust, World Gold Trust Services, LLC (the “Sponsor”), all adjustments (which include normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows as of and for the three and nine months ended June 30, 2015 and for all periods presented have been made.

These financial statements should be read in conjunction with the financial statements and notes thereto included in the Trust’s Annual Report on Form 10-K for the fiscal year ended September 30, 2014. The results of operations for the nine months ended June 30, 2015 are not necessarily indicative of the operating results for the full fiscal year.

### 2. Significant Accounting Policies

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires those responsible for preparing financial statements to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Trust.

## 2.1. Basis of Accounting

The financial statements have been prepared in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”), which require management to make certain estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

## 2.2. Investment Company Status

In June 2013, the FASB issued Accounting Standards Update 2013-08, *Investment Companies – Amendments to the Scope, Measurement, and Disclosure Requirements* (“ASU 2013-08”). ASU 2013-08 is an update to Topic 946 that provides guidance to assess whether an entity is an investment company, and establishes additional measurement and disclosure requirements for an investment company. ASU 2013-08 is effective for interim and annual periods beginning after December 15, 2013 and is required to be applied prospectively. The Sponsor concluded that the Trust meets the definition of an investment company. As a result, effective October 1, 2014, the Trust qualifies as an investment company solely for accounting purposes pursuant to the accounting and reporting guidance under Topic 946, but is not registered, and is not required to be registered, under the Investment Company Act.

As a result of the prospective application of ASU 2013-08, certain disclosures required by Topic 946 are only presented for periods beginning October 1, 2014. Financial statements and disclosures for periods prior to October 1, 2014 will continue to be presented in their previously reported form, however certain captions have been changed. The primary changes to the financial statements resulting from the adoption of ASU 2013-08 and corresponding application of Topic 946 include:

- Reporting of investment in gold at fair value on the Unaudited Statement of Financial Condition, which was previously reported at the lower of average cost or market value;
- Recognition of the net change in unrealized appreciation/depreciation on investment in gold within the Unaudited Statements of Operations, which was previously reported as an “Adjustment of redeemable shares to redemption value” on the Audited Statement of Changes in Shareholders’ Deficit;
- Shares of the Trust are classified as Net Assets on the Unaudited Statement of Financial Condition, which was previously classified as “Shares at redemption value to investors.” An adjustment was recorded as of October 1, 2014 to reclassify the balance of Shares at redemption value to investors at September 30, 2014 into Net Assets as follows (all balances in 000’s):

| (Amounts in 000’s of US\$)              | Balance at<br>September 30, 2014 | Transition<br>Adjustment | ASU 2013-08<br>Balance at<br>October 1, 2014 |
|---|----------------------------------|--------------------------|--|
| Shares at redemption value to investors | \$ 30,096,869                    | \$(30,096,869)           | \$ —   |
| Net Assets                              | —                                | 30,096,869               | 30,096,869                                   |

- The addition of a Schedule of Investments and a Financial Highlights note to the financial statements.

ASU 2013-08 prescribes that an entity that qualifies as an investment company as a result of an assessment of its status shall account for the effect of the change in status prospectively from the date of the change in status and shall recognize any impact as a cumulative effect adjustment to the net asset value at the beginning of the period. No cumulative effect adjustment to net asset value was required to be recorded as a result of the Trusts adoption of ASU 2013-08 because the fair value of gold bullion held by the Trust was lower than the cost of gold held by Trust at September 30, 2014, and therefore, there was no accumulated shareholders’ equity or (deficit).

## 2.3. Fair Value Measurement

FASB Accounting Standards Codification 820, “Fair Value Measurements and Disclosures” (“ASC 820”), provides a single definition of fair value, a hierarchy for measuring fair value and expanded disclosures about fair value adjustments.

Various inputs are used in determining the fair value of the Trust’s assets or liabilities. These inputs are categorized into three broad levels. Level 1 includes unadjusted prices in active markets for identical assets or liabilities. Level 2 includes other significant observable market based inputs (including prices for similar securities, interest rates, prepayment speed, and credit risk). Level 3 includes unobservable inputs, which may include management’s own assumptions in determining the fair value of investments. The Trust does not hold any derivative instruments, and its assets only consist of allocated gold bullion and gold receivable; representing gold covered by contractually binding orders for the creation of Shares where the gold has not yet been transferred to the Trust’s account and, from time to time, cash, which is used to pay expenses.

The following table summarizes the Trust’s investments at fair value as of June 30, 2015:

| (Amounts in 000’s of US\$) | <u>Level 1</u>      | <u>Level 2</u> | <u>Level 3</u> |
|----------------------------|---------------------|----------------|----------------|
| Investment in Gold         | \$26,852,191        | \$ —           | \$ —           |
| <b>Total</b>               | <u>\$26,852,191</u> | <u>\$ —</u>    | <u>\$ —</u>    |

On March 20, 2015, the LBMA Gold Price was initiated and replaced the London Gold Fix. ICE Benchmark Administration Limited (“IBA”) an independent specialist benchmark administrator provides the auction platform and methodology as well as the overall independent administration and governance for the LBMA Gold Price. In determining the net asset value (“NAV”) of the Trust, the Trustee values the gold held by the Trust on the basis of the price of an ounce of gold determined by the IBA 3:00 PM auction process (“LBMA Gold Price PM”), which is an electronic auction, with the imbalance calculated, and the price adjusted in rounds (45 seconds in duration). The auction runs twice daily at 10:30 AM and 3:00 PM London time. Prior to March 20, 2015, the Trustee valued the gold held by the Trust on the basis of the price of an ounce of gold set by the afternoon session of the twice daily fix of the price of an ounce of gold which started at 3:00 PM London, England time and was performed by the four members of the London Gold Fix. Beginning March 20, 2015 the Trustee determines the NAV of the Trust on each day the NYSE Arca is open for regular trading, at the earlier of the LBMA Gold Price PM for the day or 12:00 PM New York time. If no LBMA Gold Price is made on a particular evaluation day or if the LBMA Gold Price has not been announced by 12:00 PM New York time on a particular evaluation day, the next most recent LBMA Gold Price (AM or PM) is used in the determination of the NAV of the Trust, unless the Trustee, in consultation with the Sponsor, determines that such price is inappropriate to use as the basis for such determination.

As of April 1, 2015, the Financial Conduct Authority in the U.K. regulates the LBMA Gold Price.

While we believe that the LBMA Gold Price is an appropriate indicator of the value of gold, there are other indicators that are available that could be different than the LBMA Gold Price. The use of such an alternative indicator could result in materially different fair value pricing of the gold in the Trust which could result in market adjustments or redemption value adjustments of the outstanding redeemable Shares.

Once the value of the gold has been determined, the Trustee subtracts all estimated accrued fees (other than the fees to be computed by reference to the value of the adjusted net asset value (“ANAV”) of the Trust or custody fees computed by reference to the value of gold held in the Trust), expenses and other liabilities of the Trust from the total value of the gold and all other assets of the Trust (other than any amounts credited to the Trust’s reserve account, if established). The resulting figure is the ANAV of the Trust. The ANAV of the Trust is used to compute the fees of the Trustee, the Sponsor and the Marketing Agent.

To determine the Trust’s NAV, the Trustee subtracts from the ANAV of the Trust the amount of estimated accrued but unpaid fees computed by reference to the value of the ANAV of the Trust and computed by reference to the value of the gold held in the Trust (i.e. the fees of the Trustee, the Sponsor, the Marketing Agent and the Custodian). The Trustee determines the NAV per Share by dividing the NAV of the Trust by the number of Shares outstanding as of the close of trading on NYSE Arca.

## 2.4. Custody of Gold

Effective December 22, 2014, HSBC Bank plc (the “Custodian”) took over custodial responsibilities of the Trust from HSBC Bank USA, N.A. Gold is held by the Custodian, on behalf of the Trust.

## 2.5. Gold Receivable

Gold receivable represents the quantity of gold covered by contractually binding orders for the creation of Shares where the gold has not yet been transferred to the Trust’s account. Generally, ownership of the gold is transferred within three business days of the trade date.

| (Amounts in 000’s of US\$) | Jun-30,<br>2015 | Sep-30,<br>2014 |
|----------------------------|-----------------|-----------------|
| Gold receivable            | \$ —            | \$ —            |

## 2.6. Gold Payable

Gold payable represents the quantity of gold covered by contractually binding orders for the redemption of Shares where the gold has not yet been transferred out of the Trust’s account. Generally, ownership of the gold is transferred within three business days of the trade date.

| (Amounts in 000’s of US\$) | Jun-30,<br>2015 | Sep-30,<br>2014 |
|----------------------------|-----------------|-----------------|
| Gold payable               | \$67,358        | \$140,368       |

## 2.7. Creations and Redemptions of Shares

The Trust creates and redeems Shares from time to time, but only in one or more Baskets (a Basket equals a block of 100,000 Shares). The Trust issues Shares in Baskets to certain authorized participants (“Authorized Participants”) on an ongoing basis. The creation and redemption of Baskets is only made in exchange for the delivery to the Trust or the distribution by the Trust of the amount of gold and any cash represented by the Baskets being created or redeemed, the amount of which will be based on the combined net asset value of the number of Shares included in the Baskets being created or redeemed determined on the day the order to create or redeem Baskets is properly received.

As the Shares of the Trust are redeemable in Baskets at the option of the Authorized Participants, the Trust has classified the Shares as Redeemable Shares on the Statement of Financial Condition as of September 30, 2014 and as Net Assets as of June 30, 2015. Prior to adoption of ASU 2013-08, the Trust recorded the redemption value of the Shares, which represented its maximum obligation, as Redeemable Shares with the difference from cost as an offsetting amount to the Shareholders’ Equity. Changes in the Shares for the nine months ended June 30, 2015 and for the year ended September 30, 2014, are as follows:

| (All amounts are in 000’s)                                  | Nine Months Ended<br>Jun-30,<br>2015 | Year Ended<br>Sep-30,<br>2014 |

## 2.8. Revenue Recognition Policy

The Trustee will, at the direction of the Sponsor or in its own discretion, sell the Trust's gold as necessary to pay the Trust's expenses. When selling gold to pay expenses, the Trustee will endeavor to sell the smallest amount of gold needed to pay expenses in order to minimize the Trust's holdings of assets other than gold. Unless otherwise directed by the Sponsor, when selling gold, the Trustee will endeavor to sell at the price established by the LBMA Gold Price PM. The Trustee will place orders with dealers (which may include the Custodian) through which the Trustee expects to receive the most favorable price and execution of orders. The Custodian may be the purchaser of such gold only if the sale transaction is made at the next LBMA Gold Price (either AM or PM) following the sale order. A gain or loss is recognized based on the difference between the selling price and the average cost of the gold sold, and such amounts are reported as net realized gain/(loss) from investment in gold sold to pay expenses on the Statement of Operations.

During the nine month period ended June 30, 2015, the fair value of gold contributed amounted to \$5,289,912,061. The total cost and fair value of gold distributed and sold was \$7,606,027,651 and \$7,371,295,384, respectively, resulting in a net realized loss of (\$234,732,267).

During the nine month period ended June 30, 2014, the fair value of gold contributed amounted to \$4,407,458,896. The total cost and fair value of gold distributed and sold was \$8,721,623,674 and \$9,051,894,397, respectively, resulting in a net realized gain of \$330,270,723.

## 2.9. Income Taxes

The Trust is classified as a "grantor trust" for US federal income tax purposes. As a result, the Trust itself will not be subject to US federal income tax. Instead, the Trust's income and expenses will "flow through" to the Shareholders, and the Trustee will report the Trust's proceeds, income, deductions, gains, and losses to the Internal Revenue Service on that basis. The Sponsor of the Trust has evaluated whether or not there are uncertain tax positions that require financial statement recognition and has determined that no reserves for uncertain tax positions are required as of June 30, 2015 or September 30, 2014.

The Sponsor evaluates tax positions taken or expected to be taken in the course of preparing the Trust's tax returns to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax positions not deemed to meet that threshold would be recorded as an expense in the current year. The Trust is required to analyze all open tax years. Open tax years are those years that are open for examination by the relevant income taxing authority. As of June 30, 2015, the 2014, 2013 and 2012 tax years remain open for examination. There are no examinations in progress at period end.

## 3. Related Parties – Sponsor and Trustee

Fees are paid to the Sponsor as compensation for services performed under the Trust Indenture and for services performed in connection with maintaining the Trust's website and marketing the Shares. The Sponsor's fee is payable monthly in arrears and is accrued daily at an annual rate equal to 0.15% of the ANAV of the Trust, subject to reduction as described below. The Sponsor will receive reimbursement from the Trust for all of its disbursements and expenses incurred in connection with the Trust.

Fees are paid to the Trustee, as compensation for services performed under the Trust Indenture. The Trustee's fee is payable monthly in arrears and is accrued daily at an annual rate equal to 0.02% of the ANAV of the Trust, subject to a minimum fee of \$500,000 and a maximum fee of \$2 million per year. The Trustee's fee is subject to modification as determined by the Trustee and the Sponsor in good faith to account for significant changes in the Trust's administration or the Trustee's duties. The Trustee will charge the Trust for its expenses and disbursements incurred in connection with the Trust (including the expenses of the Custodian paid by the Trustee), exclusive of fees of agents for services to be performed by the Trustee, and for any extraordinary services performed by the Trustee for the Trust.

Affiliates of the Trustee may from time to time act as Authorized Participants or purchase or sell gold or Shares for their own account, as agent for their customers and for accounts over which they exercise investment discretion.

### **3.1. Other Vendor Agreements**

Fees are paid to the Custodian under the Allocated Bullion Account Agreement between the Trustee and the Custodian (as amended, the "Allocated Bullion Account Agreement") as compensation for its custody services. Under the Allocated Bullion Account Agreement, the Custodian's fee is computed at an annual rate equal to 0.10% of the average daily aggregate value of the first 4.5 million ounces of gold held in the Trust's allocated gold account ("Trust Allocated Account") and the Trust's unallocated gold account ("Trust Unallocated Account") and 0.06% of the average daily aggregate value of all gold held in the Trust Allocated Account and the Trust Unallocated Account in excess of 4.5 million ounces.

The Custodian and its affiliates may from time to time act as Authorized Participants or purchase or sell gold or Shares for their own account, as agent for their customers and for accounts over which they exercise investment discretion.

Fees are paid to the marketing agent for the Trust, State Street Global Markets, LLC (the "Marketing Agent"), by the Trustee from the assets of the Trust as compensation for services performed pursuant to the Marketing Agent Agreement, between the Sponsor and the Marketing Agent (as amended, the "Marketing Agent Agreement"). The Marketing Agent's fee is payable monthly in arrears and is accrued daily at an annual rate equal to 0.15% of the ANAV of the Trust, subject to reduction as described below.

The Marketing Agent and its affiliates may from time to time act as Authorized Participants or purchase or sell gold or Shares for their own account, as agent for their customers and for accounts over which they exercise investment discretion.

Under the Marketing Agent Agreement, if at the end of any month, the estimated ordinary expenses of the Trust exceed an amount equal to 0.40% per year of the daily ANAV of the Trust for such month, the Sponsor and the Marketing Agent will waive the amount of such excess from the fees payable to them from the assets of the Trust for such month in equal shares up to the amount of their fees. Investors should be aware that, if the gross value of the Trust assets is less than approximately \$1.0 billion, the ordinary expenses of the Trust (including the fees and expenses of the Trustee and the Custodian, printing and mailing costs, legal and audit fees, registration fees and listing fees) will accrue at a rate greater than 0.40% per year of the daily ANAV of the Trust. Additionally, if the Trust incurs unforeseen expenses that cause the total of such ordinary expenses of the Trust to exceed 0.70% per year of the daily ANAV of the Trust those expenses will accrue at a rate greater than 0.40% per year of the daily ANAV of the Trust, even after the Sponsor and the Marketing Agent have completely waived their combined fees of 0.30% per year of the daily ANAV of the Trust.

For the nine months ended June 30, 2015, the Sponsor and the Marketing Agent each waived their fees in the amount of \$2,047,695 since the Trust's ordinary expenses exceeded 0.40% per year of the daily ANAV of the Trust. The Sponsor and Marketing Agent did not waive their fees for the nine months ended June 30, 2014.

The Sponsor filed a Definitive Consent Solicitation Statement (the “Consent Solicitation”) with the SEC on June 19, 2014 with respect to a proposal to amend and restate the Trust Indenture of the Trust to (i) implement a unitary fee structure and cap investor ordinary fees at 0.40% of the NAV each year and (ii) permit the Sponsor to compensate its affiliates for providing marketing and other services to the Trust without any additional cost to the Trust. The shareholders approved the proposal in its entirety on February 25, 2015.

#### 4. Concentration of Risk

The Trust’s sole business activity is the investment in gold. Various factors could affect the price of gold: (i) global gold supply and demand, which is influenced by such factors as forward selling by gold producers, purchases made by gold producers to unwind gold hedge positions, central bank purchases and sales, and production and cost levels in major gold-producing countries such as China, Australia, South Africa and the United States; (ii) investors’ expectations with respect to the rate of inflation; (iii) currency exchange rates; (iv) interest rates; (v) investment and trading activities of hedge funds and commodity funds; and (vi) global or regional political, economic or financial events and situations. In addition, there is no assurance that gold will maintain its long-term value in terms of purchasing power in the future. In the event that the price of gold declines, the Sponsor expects the value of an investment in the Shares to decline proportionately. Each of these events could have a material effect on the Trust’s financial position and results of operations.

#### 5. Indemnification

The Sponsor and its shareholders, members, directors, officers, employees, affiliates and subsidiaries are indemnified from the Trust and held harmless against certain losses, liabilities or expenses incurred in the performance of its duties under the Trust Indenture without gross negligence, bad faith, willful misconduct, willful malfeasance or reckless disregard of the indemnified party’s obligations and duties under the Trust Indenture. Such indemnity includes payment from the Trust of the costs and expenses incurred in defending against any claim or liability under the Trust Indenture. Under the Trust Indenture, the Sponsor may be able to seek indemnification from the Trust for payments it makes in connection with the Sponsor’s activities under the Trust Indenture to the extent its conduct does not disqualify it from receiving such indemnification under the terms of the Trust Indenture. The Sponsor will also be indemnified from the Trust and held harmless against any loss, liability or expense arising under the Marketing Agent Agreement or any agreement entered into with an Authorized Participant which provides the procedures for the creation and redemption of Baskets and for the delivery of gold and any cash required for creations and redemptions insofar as such loss, liability or expense

arises from any untrue statement or alleged untrue statement of a material fact contained in any written statement provided to the Sponsor by the Trustee. Any amounts payable to the Sponsor are secured by a lien on the Trust.

The Sponsor has agreed to indemnify certain parties against certain liabilities and to contribute to payments that such parties may be required to make in respect of those liabilities. The Trustee has agreed to reimburse such parties, solely from and to the extent of the Trust's assets, for indemnification and contribution amounts due from the Sponsor in respect of such liabilities to the extent the Sponsor has not paid such amounts when due. The Sponsor has agreed that, to the extent the Trustee pays any amount in respect of the reimbursement obligations described in the preceding sentence, the Trustee, for the benefit of the Trust, will be subrogated to and will succeed to the rights of the party so reimbursed against the Sponsor.

## 6. Financial Highlights

The Trust is presenting the following financial highlights related to investment performance and operations of a Share outstanding for the nine month period ended June 30, 2015. The net investment loss and total expense ratios have been annualized. The total return at net asset value is based on the change in net asset value of a Share during the period and the total return at market value is based on the change in market value of a Share on the NYSE Arca during the period. An individual investor's return and ratios may vary based on the timing of capital transactions.

## 7. Subsequent Events

Effective July 17, 2015, the Trust's only recurring expense is expected to be the remuneration paid to the Sponsor. The Sponsor's fee accrues daily at an annual rate equal to 0.40% of the daily NAV, in exchange for the Sponsor assuming the responsibility to pay all ordinary fees and expenses of the Trust which include fees and expenses of the Trustee, the fees and expenses of the Custodian for the custody of the Trust's gold bars, the fees and expenses of the Sponsor, certain taxes, the fees of the Marketing Agent, printing and mailing costs, legal and audit fees, registration fees, NYSE Arca listing fees and other marketing costs and expenses.

The Sponsor has evaluated events through the issuance of financial statements and determined that no other events have occurred that require disclosure.

### Trust Overview

SPDR® Gold Trust is an investment trust that was formed on November 12, 2004. The Trust issues baskets of Shares, or Baskets, in exchange for deposits of gold and distributes gold in connection with the redemption of Baskets. The investment objective of the Trust is for the Shares to reflect the performance of the price of gold bullion, less the expenses of the Trust’s operations. The Shares are designed to provide investors with a cost effective and convenient way to invest in gold.

As of the date of this quarterly report Barclays Capital Inc., Credit Suisse Securities (USA) LLC, Goldman, Sachs & Co., Goldman Sachs Execution & Clearing, L.P., HSBC Securities (USA) Inc., J.P. Morgan Securities Inc., Merrill Lynch Professional Clearing Corp., Morgan Stanley & Co. LLC, RBC Capital Markets LLC, Scotia Capital (USA) Inc., UBS Securities LLC, and Virtu Financial BD LLC are the only Authorized Participants. An updated list of Authorized Participants can be obtained from the Trustee or the Sponsor.

Investing in the Shares does not insulate the investor from certain risks, including price volatility. The following chart illustrates the movement in the price of the Shares and NAV of the Shares against the corresponding gold price (per 1/10 of an oz. of gold) since the day the Shares first began trading on the NYSE:

**Share price & NAV v. gold price from November 18, 2004 to June 30, 2015**

The divergence of the price of the Shares and NAV of the Shares from the gold price over time reflects the cumulative effect of the Trust expenses that arise if an investment had been held since inception.

## **Valuation of Gold, Definition of NAV and ANAV**

As of the LBMA Gold Price on each day that the NYSE Arca is open for regular trading or, if there is no LBMA Gold Price on such day or the LBMA Gold Price PM has not been announced by 12:00 PM New York time on such day, as of 12:00 PM New York time on such day (the "Valuation Time"), the Trustee values the gold held by the Trust and determines both the ANAV and the NAV of the Trust.

At the Valuation Time, the Trustee values the Trust's gold on the basis of that day's LBMA Gold Price PM or, if no LBMA Gold Price PM is made on such day or has not been announced by the Valuation Time, the next most recent LBMA Gold Price (AM or PM) determined prior to the Valuation Time will be used, unless the Trustee, in consultation with the Sponsor, determines that such price is inappropriate as a basis for valuation. In the event the Trustee and the Sponsor determine that the LBMA Gold Price PM or last prior LBMA Gold Price (AM or PM) is not an appropriate basis for valuation of the Trust's gold, they will identify an alternative basis for such valuation to be employed by the Trustee. While we believe that the LBMA Gold Price is an appropriate indicator of the value of gold, there are other indicators that are available that could be different than the LBMA Gold Price. The use of such an alternative indicator could result in materially different fair value pricing of the gold in the Trust which could result in different market value adjustments or redemption value adjustments of our outstanding redeemable Shares.

Once the value of the gold has been determined, the Trustee subtracts all estimated accrued but unpaid fees (other than the fees to be computed by reference to the value of the ANAV of the Trust or custody fees computed by reference to the value of gold held in the Trust), expenses and other liabilities of the Trust from the total value of the gold and all other assets of the Trust (other than any amounts credited to the Trust's reserve account, if established). The resulting figure is the ANAV of the Trust. The ANAV of the Trust is used to compute the fees of the Trustee, the Sponsor, and the Marketing Agent.

To determine the Trust's NAV, the Trustee subtracts from the ANAV of the Trust the amount of estimated accrued but unpaid fees computed by reference to the value of the ANAV of the Trust and computed by reference to the value of the gold held in the Trust (i.e., the fees of the Trustee, the Sponsor, the Marketing Agent and the Custodian). The Trustee determines the NAV per Share by dividing the NAV of the Trust by the number of Shares outstanding as of the close of trading on the NYSE Arca.

## **Critical Accounting Policy**

### *Valuation of Gold*

Gold is held by HSBC Bank plc, the Custodian, on behalf of the Trust. Beginning October 1, 2014, the gold held by the Trust is reported at fair value on the Statements of Financial Condition. Prior to October 1, 2014, the gold held by the Trust was reported at the lower of cost or market, using the average cost method.

## **Results of Operations**

In the nine months ended June 30, 2015, an additional 44,500,000 Shares (445 Baskets) were created in exchange for 4,272,839 ounces of gold, 63,300,000 Shares (633 Baskets) were redeemed in exchange for 6,078,281 ounces of gold, and 72,861 ounces of gold were sold to pay expenses.

As at June 30, 2015, the Custodian held 22,930,991 ounces of gold on behalf of the Trust in its vault, 100% of which is allocated gold in the form of London Good Delivery gold bars with a fair value of \$26,852,190,839 (cost \$28,339,026,923) based on the LBMA Gold Price PM on June 30, 2015. Subcustodians held nil ounces of gold in their vaults on behalf of the Trust.

As at September 30, 2014, the amount of gold owned by the Trust was 24,751,771 ounces, with a market value of \$30,110,529,883 (cost \$30,587,784,162), net of gold payable of 115,387 ounces with a market value of \$140,368,276, based on the London PM Fix on September 30, 2014 (in accordance with the Trust Indenture).

As at September 30, 2014, the Custodian held 24,867,158 ounces of gold in its vault 100% of which is allocated gold in the form of London Good Delivery gold bars including gold payable, with a fair value of \$30,250,898,159 (cost \$30,728,152,437). Subcustodians held nil ounces of gold in their vaults on behalf of the Trust and 115,387 ounces of gold were payable by the Trust in connection with the creation and redemption of Baskets.

As at March 20, 2015, Inspectorate International Limited concluded the annual random sample count of the Trust’s gold bullion held by the Custodian. The results can be found on [www.spdrgoldshares.com](http://www.spdrgoldshares.com).

*Cash Resources and Liquidity*

At June 30, 2015 the Trust did not have any cash balances. When selling gold to pay expenses, the Trustee endeavors to sell the exact amount of gold needed to pay expenses in order to minimize the Trust’s holdings of assets other than gold. As a consequence, we expect that the Trust will not record any cash flow from its operations and that its cash balance will be zero at the end of each reporting period.

*Analysis of Movements in the Price of Gold*

As movements in the price of gold are expected to directly affect the price of the Trust’s Shares, investors should understand what the recent movements in the price of gold have been. Investors, however, should also be aware that past movements in the gold price are not indicators of future movements. This section identifies recent trends in the movements of the gold price.

The following chart provides historical background on the price of gold. The chart illustrates movements in the price of gold in US dollars per ounce over the period from July 1, 2010 to June 30, 2015, and is based on the London PM Fix until March 19, 2015 and thereafter is based on the LBMA Gold Price PM.

- (1) The end of period gold price is the LBMA Gold Price PM (formerly, the London PM Fix) on the last business day of the period. This is in accordance with the Trust Indenture and the basis used for calculating the Net Asset Value of the Trust.
- (2) There was no London PM Fix on the last business day of December 2012, 2013 and 2014. The London AM Fix on such business days was \$1,664.00, \$1,201.50 and \$1,199.25, respectively. The Net Asset Value of the Trust on December 31, 2012 and December 30, 2013 and December 31, 2014 was calculated using the London AM Fix, in accordance with the Trust Indenture.
- (3) There was no London PM Fix for both December 24th and December 31st for the periods ended 2012, 2013 and 2014. For comparative purposes, the average was calculated using the London AM Fix for those business days. Accordingly, the Net Asset Value of the Trust for December 24th and December 31st for the periods ended 2012, 2013 and 2014, was calculated using the London AM Fix.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The Trust Indenture does not authorize the Trustee to borrow for payment of the Trust's ordinary expenses. The Trust does not engage in transactions in foreign currencies which could expose the Trust or holders of Shares to any foreign currency related market risk. The Trust does not invest in any derivative financial instruments or long-term debt instruments.

**Item 4. Controls and Procedures**

*Disclosure controls and procedures.* Under the supervision and with the participation of the Sponsor, including its chief executive officer and chief financial officer, the certifying officers carried out an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures. Based upon that evaluation, our chief executive officer and chief financial officer concluded that the disclosure controls and procedures were effective as of the end of the period covered by this quarterly report.

*Internal control over financial reporting.* There has been no change in the internal control of the Trust over financial reporting that occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the internal control over financial reporting.

## **PART II – OTHER INFORMATION:**

### **Item 1. Legal Proceedings**

Not applicable.

### **Item 1A. Risk Factors**

You should carefully consider the factors discussed in Part I, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the year ended September 30, 2014, which could materially affect our business, financial condition or future results.

There have been no material changes in our risk factors from those disclosed in our 2014 Annual Report on Form 10-K, except for the following:

**The value of the gold held by the Trust is determined using the recently established LBMA Gold Price PM. Potential discrepancies in the calculation of the LBMA Gold Price PM, as well as any future changes to the LBMA Gold Price PM, could impact the value of the gold held by the Trust and could have an adverse effect on the value of an investment in the Shares.**

The LBMA Gold Price is determined twice each business day (10:30 a.m. and 3:00 p.m. London time) by the participants in a physically settled, electronic and tradable auction administered by the IBA using a bidding process that determines the price of gold by matching buy and sell orders submitted by the participants for the applicable auction time. The net asset value of the Trust is determined each day the Trust’s principal market, the NYSE Arca, is open for regular trading, using the LBMA Gold Price PM. If the LBMA Gold Price PM has not been announced by 12:00 PM New York time on a particular evaluation day, the next most recent LBMA Gold Price (AM or PM) is used in the determination of the net asset value of the Trust. The Trust, the Sponsor, and the Trustee do not participate in establishing the LBMA Gold Price PM. Other trusts backed by physical gold also use the LBMA Gold Price PM to determine their asset value. The LBMA Gold Price PM replaced the London PM Gold Fix on March 20, 2015 and is expected to become a widely used benchmark for daily gold prices.

In the event that the LBMA Gold Price PM does not prove to be an accurate benchmark, and the LBMA Gold Price PM varies materially from the price determined by other mechanisms, the Net Asset Value of the Trust and the value of an investment in the Shares could be adversely impacted. The LBMA Gold Price PM is a new benchmark. Any future developments in the benchmark, to the extent they have a material impact on the LBMA Gold Price PM, could adversely impact the Net Asset Value of the Trust and the value of an investment in the Shares. Further, the calculation of the LBMA Gold Price PM is not an exact process. Rather it is based upon a procedure of matching orders from participants in the auction process and their customers to sell gold with orders from participants in the auction process and their customers to buy gold at particular prices. The LBMA Gold Price PM does not therefore purport to reflect each buyer or seller of gold in the market, nor does it purport to set a definitive price for gold at which all orders for sale or purchase will take place on that particular day or time. All orders placed into the auction process by the participants will be executed on the basis of the price determined pursuant to the LBMA Gold Price PM auction process (provided that orders may be cancelled, increased or decreased while the auction is in progress). It is possible that electronic failures or other unanticipated events may occur that could result in delays in the announcement of, or the inability of the system to produce, an LBMA Gold Price PM on any given date. Furthermore, if a perception were to develop that the new LBMA Gold Price PM is vulnerable to manipulation attempts, or if the proceedings surrounding the determination and publication of the LBMA Gold Price PM were seen by the markets as unfair, biased or otherwise compromised, the behavior of investors and traders in gold may change, and those changes may have effect on the price of gold and, consequently, the value of the Shares. In any of these circumstances, the intervention of extraneous events disruptive of the normal interaction of the supply and demand of gold at any given time may result in distorted prices and losses on an investment in the Shares that, but for such extraneous events, might not have occurred. The operation of the auction process which determines the LBMA Gold Price

PM is dependent on the continued operation of the LBMA and the IBA and their applicable systems. Neither the Sponsor nor the Trustee has any control or supervision over the auction process of the LBMA Gold Price PM or the operation and systems of the LBMA and IBA.

**If concerns about the integrity or reliability of the LBMA Gold Price PM arise, even if eventually shown to be without merit, such concerns could adversely affect investor interest in gold and therefore adversely affect the price of gold and the value of an investment in the Shares.**

Because the net asset value of the Trust is determined using the LBMA Gold Price PM, discrepancies in, or manipulation of the calculation of the LBMA Gold Price PM could have an adverse impact on the value of an investment in the Shares. Furthermore, any concern about the integrity or reliability of the pricing mechanism could disrupt trading in gold and products using the LBMA Gold Price PM, such as the Shares. In addition, these concerns could potentially lead to changes in the manner in which the LBMA Gold Price PM is calculated and/or the discontinuance of the LBMA Gold Price PM altogether. Each of these factors could lead to less liquidity or greater price volatility for gold and products using the LBMA Gold Price PM, such as the Shares, or otherwise could have an adverse impact on the trading price of the Shares.

**If a perception were to develop that the new LBMA Gold Price PM is vulnerable to manipulation attempts, or if the proceedings surrounding the determination and publication of the LBMA Gold Price PM were seen by the markets as unfair, biased or otherwise compromised, the behavior of investors and traders in gold may change and reflect a lack of confidence, and those changes may have an effect on the price of gold and, consequently, the value of the Shares.**

Prior to the adoption of the LBMA Gold Price PM as the new pricing benchmark, and beginning in early 2014, increased attention has been directed to the use of various financial benchmarks and indices as price setting mechanisms for market transactions, including the predecessor gold pricing benchmark, the London Gold Fix. For example, the press has reported that regulators in both Germany and the United Kingdom are currently reviewing the London Gold Fix as part of a wider review of how global benchmark rates are set. One member of The London Gold Market Fixing Ltd. has been sanctioned by regulators in the United Kingdom for failing to adequately manage conflicts of interest and other matters in connection with the London Gold Fix, and a senior trader for the firm has been sanctioned for inappropriate conduct relating to the London Gold Fix. It is possible that there may be additional regulatory actions brought against other members of The London Gold Market Fixing Ltd. Separately, several lawsuits have been filed against the member banks which established the London Gold Fix for alleged manipulative conduct in connection with their role in determining the London Gold Fix. If the ongoing investigations identify that there was historic manipulation of the London Fix, this may lead to the perception that the price of gold is susceptible to manipulation

The risks described above and in our Annual Report on Form 10-K are not the only risks facing the Trust. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
